

NAME:

# Migrants, Asylum Seekers and Refugees – Current Situation

## ACTIVITY 1 - GRAPHING

The 'Present Day' (page 29) section of the factbook contains a number of tables showing:

- Countries of Origin for Refugees
- Countries of Asylum for Refugees
- UNHCR Resettlement Figures
- Australia's Refugee intake in comparison to total migration intake

Using Microsoft Excel, produce one graph to represent the data in each table (four graphs in total).

Use the 'Graphing guide' to help you. The graphing guide uses the UNHCR Resettlement figures as an example.

## ACTIVITY 2 - INFOGRAPHIC

Create an infographic using the statistics that are presented under the 'Australia's Refugee and Total Migration Intake'(located at the bottom of page 31).
