The difference we make

Vinnies Mental Health Service works closely with each consumer, providing personalised one-on-one support.

Who do we support?

We support adults aged 18 and above who may be:

- ✓ Experiencing persistent and enduring mental health challenges
- ✓ At risk of homelessness
- ✓ Struggling with other complex challenges
- ✓ Disconnected from family or their local community
- ✓ Impacted by trauma, violence or disadvantage.

Acknowledgement of Country

We acknowledge Aboriginal and Torres Strait Islander peoples, as the Traditional Custodians of this land, with deep respect. May Elders, past and present, be blessed and honoured. May we join together and build a future based on compassion, justice, hope, faith, and reconciliation.

To respect the privacy of the people we assist, some of the names and images may have been changed.

About Vinnies Mental Health Service

Vinnies Mental Health Service provides personalised support that empowers people to make informed choices and take positive steps on their recovery journey.

At the heart of the service is The Village, a welcoming 28-unit community offering support 24 hours a day in an environment that promotes recovery, independence and connection.

For people requiring less intensive support, our Community Shared Houses offer a pathway towards greater independence in number of locations close to the Village.

While there is no set timeframe for support, we focus on empowering people to achieve greater independence so they can move into the next chapter of their lives at their own pace.

Our approach

We believe every person's journey is different. That's why our approach is grounded in trauma-informed care that is provided in an environment where each consumer feels safe, valued and respected.

Referrals are made through mental health professionals, with each consumer supported in a setting that is best suited to their needs. With the right support, stability and encouragement, we believe everyone has the opportunity to build a fulfilling and meaningful life.

Our partnerships

Strong partnerships are central to our approach.

We collaborate with a wide range of community organisations and services to ensure consumers can access the support they need, both within and beyond our accommodation services.

This includes connections to community mental health teams, GPs, allied support services and NDIS providers.

By working together, we help each consumer build the foundations for greater independence, stronger community connections and a brighter future.

Our team

Guided by a strengths-based approach, our compassionate and dedicated team create a safe, welcoming and non-judgemental environment where each consumer is treated with dignity and respect.

Through personalised one-on-one support, our staff work to build trust, strengthen confidence and empower consumers to achieve their goals.

We understand that navigating mental health and support systems can be overwhelming, which is why our staff are there to provide practical and tailored support built on connection and encouragement.

How we help

We strive to provide a secure, welcoming and supportive place for people to rebuild their sense of confidence, stability and independence.

Our consumers enter into an Accommodation Agreement and contribute towards the cost of their stay through charges and fees based on their individual income and level of support.

Contributions vary across services and help ensure consumers have access to a comfortable, supportive and community-focused environment.

This includes access to:

- ✓ A furnished private room with an ensuite
- ✓ Nutritious home-cooked meals
- ✓ Recovery-focused case management and personalised support
- ✓ Support to access medical care, mental health services and other community resources
- ✓ Assistance with everyday living skills such as cleaning, laundry and shopping
- ✓ Comfortable communal living spaces that foster connection
- ✓ Group activities, wellbeing programs and monthly social events to encourage participation and connection.
